Plateau Mining Corporation
Five-Year Renewal
Star Point Mine
C/007/0006
Carbon County, Utah

December 30, 2011

PROPOSAL

Plateau Mining Corporation proposes to renew the permit for the Star Point Mine, which was completely reclaimed on October 2, 2003.

BACKGROUND

Mining in the area of the Star Point Mines began in 1917 and continued until 2000 under various companies. Cyprus Plateau Mining Corporation (previous permittee) acquired the property in 1980 and undertook the process of permitting the mine under the Surface Mining Control and Reclamation Act of 1977.

The original permit for the Star Point Mine was issued on January 28, 1987, and was renewed on January 28, 1992, January 28, 1997, January 28, 2002 and January 28, 2007.

RAG acquired the property and a name change from Cyprus Plateau Mining Company to Plateau Mining Corporation was approved on June 30, 1999. The site went into temporary cessation on February 11, 2000 and notice of permanent cessation was on June 5, 2000. Reclamation commenced on September 17, 2001 and was completed on October 2, 2003.

Sunnyside Cogeneration Associates (SCA) acquired the refuse pile in January 2002 and a separate permit for that facility was issued on November 14, 2003. At that time, the refuse pile was removed from the Star Point Mine permit area. Gas wells were also removed from the permit area by a Phase III bond release (approved on December 24, 2003). Phase I Bond Release was approved on October 21, 2004.

The stock of RAG was sold to Foundation Coal Corporation on July 30, 2004. Foundation Coal Corporation was owned by Foundation Coal Holding Inc., which then merged with Alpha Natural Resources, Inc. on July 31, 2009. Then due to various intra-corporate reorganizations, the parent company ended up being Alpha Natural Resources, Inc. While Alpha Natural Resources, Inc. is the parent company, Plateau Mining Corporation remains the permittee.

On June 30, 2010, the permit area was reduced by 40 acres when the area was turned over to Conoco Phillips for gas well production. This brought the total permit area to 8,885 acres.

A reclamation surety bond in the amount of \$672,000 is currently posted for the completion of reclamation at the Star Point Mine. The permit is for completing reclamation only.

This permit renewal application was received on October 12, 2011.

RECOMMENDATION

The application for a successive permit renewal has met the requirements for approval. The permit renewal was advertised in the Sun Advocate and in the Emery County Progress on November 8, 15, 22 and 29, 2011. No comments were received. This permit renewal for reclamation only should be approved.
